

Tuesday, 20 March 2018

	1	2	3	4	5	6	7	8
09:00 - 10:00	WELCOME ADDRESSES and KEYNOTE							
10:00 - 10:30	COFFEE BREAK							
10:30 - 12:15	S14 (6) Setting the automation agenda for Remote sensing: learning to see through a computer?	S13 (6) Digital Documentation Archaeological Ships. What do we do and what do we need?	S19 (6) Agents, networks and models: formal approaches to systems, relationships and change in archaeology	S24 (5) Computational classification in archaeology	S1 (6) Creative Disruption in Archaeological Theory and Practice	S11 (5) Untapping the value of old fieldwork records	S29 (6) Digital Innovation & Experimentation in Archaeology & Cultural Heritage Collections	GEN (4) General Papers
12:15 - 13:45	LUNCH BREAK							
13:45 - 15:30	S14 (5) Setting the automation agenda for Remote sensing: learning to see through a computer?	S15 (4) Analysing Historical Transportation Systems from new applications and methodologies	S19 (5) Agents, networks and models: formal approaches to systems, relationships and change in archaeology	S24 (5) Computational classification in archaeology	S1 (5) Creative Disruption in Archaeological Theory and Practice	S11 (5) Untapping the value of old fieldwork records	S29 (6) Digital Innovation & Experimentation in Archaeology & Cultural Heritage Collections	GEN (4) General Papers
15:30 - 16:45	POSTER SESSION & COFFEE							
16:45 - 18:00		S15 (3) Analysing Historical Transportation Systems from new applications and methodologies	S19 (5) Agents, networks and models: formal approaches to systems, relationships and change in archaeology	S24 (5) Computational classification in archaeology	S1 (5) Creative Disruption in Archaeological Theory and Practice	S11 (5) Untapping the value of old fieldwork records	S5 (5) Exploring Digital Interpretation, Argumentation, Conflict	GEN (5) General Papers

Color Legend: **Theory** **GIS** **3D** **Data / Computing** **Documentation** **General Papers** **Posters**

Note: In each session slot the number in parentheses following the session identifier indicates the number of papers allocated to this slot. Some sessions span multiple time slots.

Wednesday, 21 March 2018

	1	2	3	4	5	6	7	8
08:15 - 10:00	S30 (4) Open Digital Infrastructures for Archaeology and Cultural Heritage	S4 (6) Close range 3D data acquisition, processing and querying in cultural heritage	S19 (5) Agents, networks and models: formal approaches to systems, relationships and change in archaeology	S38 (5) Applicability of Digital Archaeology Tools	S34 (5) R as an archaeological tool: current state and directions	S25 (4) Do we have a heading? Ah! A heading. Set sail in a... uh... for Mobile GIS direction!	S12 (5) Making the most of film and video in archaeology	S3 (5) Digital Archaeology Scholars in a Changing World: Problems, Perspectives, and Challenges
10:00 - 10:30	COFFEE BREAK							
10:30 - 12:15	S30 (4) Open Digital Infrastructures for Archaeology and Cultural Heritage	S4 (6) Close range 3D data acquisition, processing and querying in cultural heritage	S19 (6) Agents, networks and models: formal approaches to systems, relationships and change in archaeology	S38 (2) Applicability of Digital Archaeology Tools S6 (3) Our little minions: small tools with major impact	S34 (5) R as an archaeological tool: current state and directions	S25 (4) Do we have a heading? Ah! A heading. Set sail in a... uh... for Mobile GIS direction!	S12 (5) Making the most of film and video in archaeology	S7 (Roundtable) What is the Value of Digitally Mediated Archaeology?
12:15 - 13:45	LUNCH BREAK							
13:45 - 15:30	S30 (5) Open Digital Infrastructures for Archaeology and Cultural Heritage	S4 (5) Close range 3D data acquisition, processing and querying in cultural heritage	S19 (6) Agents, networks and models: formal approaches to systems, relationships and change in archaeology	S21 (5) Structural Analysis for Cultural Heritage: Tools and Methods for Assessing Heritage Monuments and Structures	S20 (5) Palaeo-GIS	S40 (4) Science and Technology (S&T) for Archaeology and Cultural Heritage in the Eastern Mediterranean	S26 (3) Sensory GIS: towards a deeper engagement?	S7 (Roundtable) What is the Value of Digitally Mediated Archaeology?
15:30 - 16:00	COFFEE BREAK							
16:00 - 17:00		S4 (3) Close range 3D data acquisition, processing and querying in cultural heritage	S2 (3) Islamic History and Archaeology: Linking Data and Ontologies	S21 (3) Structural Analysis for Cultural Heritage: Tools and Methods for Assessing Heritage Monuments & Structures	S20 (3) Palaeo-GIS	S40 (3) Science and Technology (S&T) for Archaeology and Cultural Heritage in the Eastern Mediterranean		S7 (Roundtable) What is the Value of Digitally Mediated Archaeology?

Thursday, 22 March 2018

	1	2	3	4	5	6	7	8
08:15 - 10:00	S37 (6) Connectivity: linking and interpreting the archaeological record	S17 (3) Early human land use strategies during Middle and Late Pleistocene glacial and interglacial times in Europe	S32 (6) Automation, combination and calibration: consolidating the framework for archaeological geophysics	S35 (5) Ancient Near Eastern and Neighboring Regions: Enlarging Research Horizons through Digital and Computational Practices	S23 (4) New Directions in Archaeological Aerial and Satellite Remote Sensing	S28 (6) Cities of Data: computational and quantitative advances to urban research	S36 (5) Advantages and Limitations of Spatial Applications in Archaeology	S41 (6) Immersive Techniques in Archaeological Practice and Publication
10:00 - 10:30	COFFEE BREAK							
10:30 - 12:15	S37 (6) Connectivity: linking and interpreting the archaeological record	S10 (4) Expanding horizons: confronting issues of scale, resolution, and representation in the study of human expansions	S32 (5) Automation, combination and calibration: consolidating the framework for archaeological geophysics	S35 (6) Ancient Near Eastern and Neighboring Regions: Enlarging Research Horizons through Digital and Computational Practices	S23 (4) New Directions in Archaeological Aerial and Satellite Remote Sensing	S28 (6) Cities of Data: computational and quantitative advances to urban research	S36 (6) Advantages and Limitations of Spatial Applications in Archaeology	S41 (5) Immersive Techniques in Archaeological Practice and Publication
12:15 - 13:45	LUNCH BREAK							
13:45 - 15:30	S42 (5) Archeology Heritage Information Modeling. Models construction for documentation and analysis	S8 (5) Untapping the potential of 3D Quantitative Analysis	S9 (5) Show your code: task streamlining, reproducibility and replicability in archaeological computing	S35 (6) Ancient Near Eastern and Neighboring Regions: Enlarging Research Horizons through Digital and Computational Practices	S23 (5) New Directions in Archaeological Aerial and Satellite Remote Sensing	S27 (4) Map management and Webgis applications for archaeological data base solutions	S16 (5) Play, Process, and Procedure: An Experiential Digital Archaeology	
15:30 - 16:00	COFFEE BREAK							
16:00 - 17:45	S42 (4) Archeology Heritage Information Modeling ... S39 (2) Heritage Beyond Boundaries: Developing Standards and Storefronts ...	S8 (6) Untapping the potential of 3D Quantitative Analysis	S9 (5) Show your code: task streamlining, reproducibility and replicability in archaeological computing	S22 (4) Social theory after the spatial turn	S33 (5) Guaranteeing data quality in archaeological Linked Open Data	S27 (4) Map management and Webgis applications for archaeological data base solutions	S16 (6) Play, Process, and Procedure: An Experiential Digital Archaeology
